---

The average size of the nursery establishment was 81.7 acres; a number of 500-acre tracts were operated. The value of land, buildings and other improvements was \$18,144,073, the former value being \$13,880,820 and the latter \$4,263,253. The average value per acre of the land was \$84. The value of implements was \$539,895 and of live stock \$462,013. The total value of products was \$10,086,136, and \$139,512 was expended for fertilizers and \$2,305,270 for labor, the latter constituting 22.9 per cent. of the value of the product, a much larger proportion than is involved in the raising of other crops, except flowers and plants. The total value of products comprised \$9,231,503 from nursery stock and \$854,633 from general farm produce. Distributed among the 2,029 establishments reporting, it gives an average value of product of \$4,971.00. Of the 165,780 acres, 82.9 per cent was improved.

## MEXICAN NURSERIES

---

Mexican nurseries are now making an effort to invade Texas. From the department of agriculture it is learned that there are quite a number of Mexican nurseries, or "gardens" as they are termed in Mexico, that want to do business in Texas. Mexico has no nursery inspection law, consequently it has become necessary for the Texas department to send over a representative to make an investigation of the nursery that wants to come into Texas, before a permit is issued. The department has received a number of inquiries from Mexican nurserymen that want to sell their product in Texas. In order that they may come in the department has appointed Harvey C. Stiles of Raymondville to proceed to Mexico and make the necessary inspection.

## AMERICAN ASSOCIA

Organized in Chicago, in 1876, with E  
mot Scott as secretary

# California Privet

**California Privet is still the leading hedge plant, because nothing has yet been produced to surpass it.**

I have an extra large stock of two-year-old plants, in all grades, to offer for Spring shipment. This stock is well branched with plenty of fibrous roots.

**I can compete in price, quantity and quality with any reliable grower.**

**I AM GROWING PRIVET TO SELL**

**Large stock of Asparagus Roots in 2 and 3 year  
Let me quote you prices before you buy.**

## NURSERY LAWS.

The following is a brief summary of the laws and regulations of the several States and Canada, governing the inspection, certification and transportation of nursery stock, condensed and arranged by the Agricultural Department of New York State, R. A. Pearson, Commissioner, Albany, N. Y.

For fuller information correspondents are referred to the officials who have charge of the work in their respective States.

**ALABAMA.**—A signed copy of inspection must be filed with the Secretary of the Alabama State Board of Horticulture, Auburn, Ala. A tag must be attached to every package of nursery stock delivered in the State. Tags are furnished at cost prices: First one hundred (100) sixty-five cents postpaid; one thousand (1,000) \$2.20 sent collect by express. The following insects and fungous diseases are quarantined against: San Jose scale, new peach scale, woolly aphis, crown gall, black knot, peach yellows, peach and plum rosette, gipsy moth and brown tail moth. Mr. R. S. Mackintosh, State Horticulturist, Auburn, Ala.

**ARIZONA.**—The horticultural inspection and quarantine law provides for quarantine of nursery stock and may be enforced against states where there is suspected danger to the horticultural interests of the territory. All nursery stock shipped into Arizona from any other State shall be prominently labeled with a certificate of inspection signed by an authorized official of the State in which the stock was grown. Shipments not so labeled shall be sent out of the territory or destroyed unless released by the inspector. Each carload, box or package shall be legibly marked with the name and address of the consignor and consignee, and name of the place where contents were grown. Mr. R. H. Forbes, Secretary and Treasurer, Horticultural Commission, Tucson, Ariz.

**ARKANSAS.**—Shipments of nursery stock into the State must be accompanied by a certificate of inspection and bear the name and address of consignor, otherwise the transportation company must notify the consignor and not deliver the shipments until a certificate is furnished. (Laws of 1903.) Mr. C. F. Adams, Entomologist and State Inspector, Fayetteville, Ark.

**CALIFORNIA**—Shipments of nursery stock into California are held by the transportation companies until inspected by county horticultural inspectors. All packages must be marked with the name and address of the shipper, name of the consignor and name of the place where the stock is grown. All nursery stock infested with pests not existing in California will be immediately sent out of the State or destroyed at the option of the owner and at his expense. Peach, apricot and almond trees coming from districts where yellows and rosette are known to exist, shall be refused entry and shall be destroyed or returned to the shipper. Notices of shipment of nursery stock to California should be sent to the county inspector at point of destination, or to Commissioner of Horticulture, Ferry Building, San Francisco, Cal.

**COLORADO**—Every owner or renter of a nursery in Colorado shall maintain a suitable structure for the fumigation of nursery stock. All Stock, buds and scions must be fumigated or otherwise treated in accordance with instructions before leaving the nursery. Every box or package of nursery stock sold or disposed of in the State must bear a certificate that the contents have been fumigated or otherwise disinfected. Nursery stock brought into the State by private parties without satisfactory certificate must be fumigated or otherwise disinfected by the inspector of the county where received before delivery. No person shall bring into any county of the State any nursery stock without giving notice of its arrival. No stock shall be delivered to the consignee until permission has been given by the inspector of the county who may detain such stock only so long as it is necessary for proper inspection or disinfection. Hon. D. R. Stotler, Secretary, Board of Horticulture, Denver, Colo.

**CONNECTICUT**—All nurseries inspected annually. Certification and treatment of nursery stock is discretionary with the State entomologist. Shipments of nursery stock into the State shall bear a statement that it has been thoroughly fumigated in addition to the certificate of inspection issued by a State or Government officer. (Chapter 338, Laws of 1903.) Dr. W. E. Britton, State Entomologist, New Haven, Conn.

**DELAWARE**—Shipments of nursery stock into the State must bear a certificate of inspection and also a certificate stating that the stock has been properly fumigated. All nursery stock not accompanied by proper certificates may be held by the transportation companies until it can be inspected. Prof. Wesley Webb, Secretary State Board of Agriculture, Dover, Del.

**FLORIDA**—Nonresidents, persons or corporations, who sell nursery stock in Florida, must pay a license tax of \$25.00 per annum to the Collector of Revenue of the county in which the nursery stock is to be sold and obtain from the county judge a license to do business. This is understood to mean that canvassers or peddlers of nursery stock, if nonresidents, must secure a license in each county of the State, but there is no interfering with the shipment of stock into Florida. There is no law governing the inspection of nursery stock, but nurserymen secure certificates from Mr. E. W. Berger, Entomologist, Agricultural Experiment Station, Gainesville, Fla.

**GEORGIA**—Nurseries are inspected annually. A signed duplicate of inspection certificate, together with a statement by the nurserymen that all stock intended for Georgia will be fumigated in accordance with directions furnished them, must be filed in the office of the State Entomologist. Official tags of the Georgia State Board of Entomology will be furnished by the State Entomologist at the following price: One hundred tags, 60 cents postpaid; 200 tags, 85 cents postpaid; 300 tags, \$1.10 postpaid; 500 tags, \$1.35, sent by express collect; 1,000 tags, \$2.00, sent by express collect. Each shipment of nursery stock into the State of Georgia must bear the official tag of the Georgia State Board of Entomology, and also a duplicate certificate of inspection of the State from which the shipment is made. (Regulations adopted January 26, 1906.) Mr. E. L. Worsham, State Entomologist, Atlanta, Ga.

**IDAHO**—No person, firm or corporation shall import or sell nursery stock without first applying to the State Board of Horticultural Inspectors and filing a bond in the sum of \$1,000. No nursery stock can be delivered or disposed of in the State without its first having been properly fumigated, and shipments into the State should bear a

copy of an official certificate of fumigation emanating from the place where the stock was grown. All shipments into the State must bear a label showing the name of the shipper, the locality where grown and variety of nursery stock. Mr. J. R. Field, State Horticultural Inspector, Boise, Idaho.

**ILLINOIS**—State nurseries are inspected and certified not later than October 1st. An inspection certificate shall be valid for one year from date of inspection. The State Entomologist is authorized to revoke a certificate if he finds it is being used in violation of the law. He is also required to furnish all Illinois nurserymen with a list of State and Government inspectors whose certificates may be received as equally valid as his own, and the nurseryman receiving stock under such certificates is authorized to substitute for them the Illinois certificate of inspection. Each dealer in nursery stock who has no nursery of his own, and each agent for a nursery located outside of Illinois, is required to furnish to the State Entomologist annually a sworn statement, showing that the stock in which he deals has been duly inspected and to submit for approval a copy of the certificate of inspection. Nursery stock shipped into the State must bear a certificate of inspection attached to each car, box, bale, bundle or package. Dr. S. A. Forbes, State Entomologist. J. A. West, Chief Horticultural Inspector, Urbana, Ill.

**INDIANA**—All nurseries are inspected between June 1st and October 1st, and at such other times as the head of the inspection department may consider advisable. Stock sent into or within, the State must be plainly labeled with the name of the consignor and consignee, and must bear a certificate signed by a state or government official, showing that the enclosed stock has been inspected and found free from injurious insects and plant diseases. (Laws of 1907-9.) Mr. Benjamin W. Douglass, State Entomologist, Indianapolis, Ind.

**IOWA**—State nurseries are inspected at owners request or if supposed to be infested with dangerous injurious insects or plant disease, and nurserymen are prohibited from selling or shipping without the inspection. Shipments into the State must be accompanied by a certificate of apparent freedom from

dangerous injurious insects or plant diseases, a copy of which has been filed with and approved by the State Entomologist of Iowa. Prof. H. E. Summers, State Entomologist, Ames, Iowa.

**KANSAS**—Nurseries are inspected annually between June 15th and November 1st. Certificates are valid until the first day of the following June. No nursery stock shall be brought into the State nor offered for sale within the State without having been properly inspected as shown by an accompanying certificate. (Laws of 1907.) State Entomological Commission, Topeka, Kansas. Prof. T. J. Headlee, Entomologist, Manhattan, Kansas. Prof. S. J. Hunter, Entomologist, Lawrence, Kan.

**KENTUCKY**—Nurseries are inspected annually. Every package of nursery stock shipped into the State must have a copy of a certificate of inspection attached and bear on the label a list of the contents. Duplicate certificates of inspection may be filed with the State Entomologist. (Laws of 1897.) Prof. H. Garman, State Entomologist, Lexington, Ky.

**LOUISIANA**—Nursery stock delivered within the State must be labeled with an official certificate of inspection based upon inspection on or after July 1st and made within twelve months preceding time of shipment. Where several orders of nursery stock are shipped to an agent in one consignment each individual order must be tagged. Shipments not so labeled shall be liable to confiscation. Nurserymen should file copy of certificate of inspection in Louisiana Crop Pest Commission office, before shipping into Louisiana. The entomologist has power to require any one in the State to fumigate trees and plants if deemed necessary. (Laws of 1903, State Crop Pest Regulations, 1907.) Secretary State Crop Pest Commission, Baton Rouge, La.

**MAINE**—Nurseries within the State are inspected annually. All nursery stock shipped into the State shall bear on each box or package a certificate that the contents have been inspected. The State Entomologist has power to inspect all stock shipped into the State at point of destination, whether under certificate or not and if found infested with any injurious insect or plant disease, he shall cause it to be destroyed or returned to the consignor. Agents

or other parties excepting growers who wish to sell nursery stock shall make application for an agent's license and shall file with the State Entomologist the names and addresses of parties from whom they purchase stock. Mr. E. F. Hitchings, State Entomologist, Augusta, Maine.

**MARYLAND**—Nurseries inspected at least once in six months. All nursery stock subject to attack of insect pests must be fumigated. Shipments into the State must be labeled with the name of consignor and consignee and each package bear a certificate of inspection. Duplicate certificates should be filed with the State Entomologist. (Chapter 289, Laws of 1898.) Prof. T. B. Symons, State Entomologist. Prof. J. B. S. Norton, State Pathologist, College Park, Md.

**MASSACHUSETTS**—Nurseries in the State are inspected annually. Agents or other persons excepting growers who desire to sell nursery stock in the State shall make application to and receive from the State Nursery Inspector an agent's license, and shall file with the State Nursery Inspector, names and addresses of all persons or nurseries from whom they purchase stock. It shall be unlawful for any person, firm or corporation to sell, deliver or ship within the State any nursery stock unless such person, firm or corporation holds a growers' certificate or an agent's license, and shall file with the State Nursery Inspector, names and addresses of all persons or nurseries from whom they purchase stock. It shall be unlawful for any person, firm or corporation to sell, deliver or ship within the State and nursery stock unless such person, firm or corporation holds a growers' certificate or an agent's license and a copy of such certificate or license must accompany each car, box or package delivered or shipped. Every person outside of the State desiring to ship nursery stock into the State shall file a copy of his certificate and receive official tags from the State Nursery Inspector has power to inspect all shipments coming into the State at point of destination and if infested or infected, may cause it to be returned to consignor or destroyed. Dr. H. T. Fernald, State Nursery Inspector, Amherst, Mass.

**MICHIGAN**—Nurseries are subject to inspection; infested trees must be de-

stroyed and the remainder of the stock within a half mile must be fumigated. Shipments into the State must bear on every package, plainly labeled, the name of the consignor and consignee, statement of contents, and a certificate showing that the contents have been inspected by a State or Government officer, and if of species subject to the attacks of San Jose scale must be fumigated with hydrocyanic acid gas. Certificates of fumigation must also be attached together with a certificate of inspection. This applies to individual orders when several are contained in the same shipment. All nurserymen whether residents of Michigan or other States, who wish to grow or sell stock within the State must apply to the State Inspector of Nurseries on or before August first of each year for a license, for which the fee is \$5.00. A bond for \$1,000 must also be filed. Certificates of inspection must be filed with the State Inspector of Nurseries before any stock is shipped into the State. Prof L. R. Taft, State Inspector of Nurseries, East Lansing, Mich.

**MINNESOTA**—There is an annual inspection of all nurseries from which stock is shipped out of the State. Shipments into the State must be accompanied by a certificate of inspection. Carrying companies accepting packages of nursery stock from without the State, without a certificate of inspection are liable. (Laws of 1903.) Prof. F. L. Washburn, State Entomologist, St. Anthony Park, Minn.

**MISSISSIPPI**—Every nursery in the State must be inspected before November 1st of each year, and every bundle, bale, or package of stock from each nursery must be accompanied by a copy of its inspection certificate attached in a conspicuous place. Every person or firm from other States wishing to ship nursery stock into Mississippi must file a copy of their certificate with the Entomologist, and shall state that the stock has been fumigated. A copy of the certificate shall be attached to every bundle, bale, or package of nursery stock delivered within the State. H. W. Harned, State Entomologist, Agricultural College, Miss.

**MISSOURI**—Nurseries inspected annually. Every package of nursery stock shipped into the State shall be plainly labeled on the outside with the name and address of the consignor and

name and address of the consignee, the contents, and a certificate showing that the contents have been inspected by a State Experiment Station Entomologist of the State from which the shipment was made, that the nursery stock is free from San Jose scale, peach yellows, rosette or other dangerously injurious insects or diseases. Transportation companies are forbidden to deliver nursery stock unless accompanied by a certificate. University of Missouri, Columbia, Mo.

**MONTANA**—All stock brought into the State must be unpacked, inspected and fumigated at one of the designated quarantine stations, viz.: Glendive, Miles City, Forsyth, Billings, Big Timber, Livingston, Bozeman, Three Forks, Helena, Anaconda, Missoula, Plains, Thompson, Dillon, Mondak, Glasgow, Hinsdale, Havre, Great Falls, Columbia Falls, Kalispell, Whitefish, Eureka and Troy. Nursery stock may be inspected and fumigated at other points of delivery on payment of all costs. To sell or deliver nursery stock it is necessary to first obtain a license by paying a fee of \$25 and by filing with the Secretary of the Board a bond in the sum of \$1,000 annually. Notice of shipment including an invoice of stock, must be sent to Mr. Jos. W. Wallisch, Secretary Montana State Board of Horticulture, Hirbour Block, Butte, Montana.

**NEBRASKA**—No inspection law, but a certificate of inspection should accompany shipments into the State. Nurseries are inspected by Prof. Lawrence Bruner, The University of Nebraska, Lincoln, Neb.

**NEVADA**—Nursery stock shipped from other States shall bear on the outside of each car, bale or package, a label giving the names of the consignor and consignees, together with a copy of an inspection certificate of recent date. Such certificate of inspection must bear the signature of a qualified person in authority in the State, in which such nursery stock was grown. No transportation company shall make delivery of any nursery stock lacking such official certificate of inspection to the consignee or to his agent within the State. (Laws 1909.) Mr. J. E. Stubbs, President State University, Reno, Nevada.

**NEW HAMPSHIRE**—Nurseries are inspected at least once each year. Shipments into the State must be accom-

panied by a certificate of inspection or in lieu thereof, an affidavit showing that the stock has been fumigated with hydrocyanic acid gas, using not less than 2-10 of one grain of cyanide of potassium per cubic foot of space, in an airtight compartment for not less than forty minutes. A copy of the certificate of inspection, or a copy of the affidavit must be attached to each car, box or package shipped into the State. (Law of March 4, 1903.) Hon N. J. Bachelder, Secretary, State Board of Agriculture, Concord, N. H. Chas. W. Stone, State Nursery Inspector, Durham, N. H.

**NEW JERSEY**—The law requires the inspection of all nurseries at least once in each year. Shipments into the State must be accompanied by a certificate of inspection, or copy thereof, attached to each car or parcel, together with a statement from the shipper that the stock therein is a part of the stock inspected and whether such stock has been fumigated with hydrocyanic acid gas or not. If stock comes into the State without a certificate it may be detained for examination, wherever found, by the State Entomologist, and if found to be infested with any insects injurious or liable to become so, will be destroyed. (Chapter 249, Laws of 1903.) Dr. John B. Smith, State Entomologist, New Brunswick, N. J.

**NEW MEXICO**—No law relative to transportation of nursery stock. The Territorial Legislature of 1903 provided for County Boards of Horticultural Commissioners, who were given authority to control orchard pests. Prof. Fabian Garcia, Horticulturist, Agricultural Experiment Station, Agricultural College, N. M.

**NEW YORK**—See preceding pages and sections 304 and 305 of the Agricultural Law, copy of which will be sent on application. Raymond A. Pearson, Commissioner of Agriculture, Albany, N. Y.

**NORTH CAROLINA**—Every shipment of nursery stock into this State must be accompanied by a valid copy of a certificate of inspection, otherwise the shipment is liable to be destroyed. Every person, firm or corporation desiring to ship nursery stock into this State must file copy of their certificate with the Entomologist. It will be of advantage to the nurserymen if they attach a guarantee of fumigation to the

shipment. A copy of regulations will be sent on application. Mr. Franklin Sherman, Jr., State Department of Agriculture, Raleigh, N. C.

**NORTH DAKOTA**—No law. Prof C. B. Waldron, Horticulturist, Agricultural College, N. D.

**OHIO**—Shipments of nursery stock entering the State must bear the name of the consignor and consignee, and be accompanied by an official certificate of inspection or fumigation. Agents and dealers are required to hold a copy of the valid certificate of nurserymen whom they represent, and file a sworn statement that the stock which they sell or deliver has been officially inspected and was received by them accompanied with a valid certificate of inspection or fumigation. Mr. N. E. Shaw, Chief Inspector, Department of Agriculture, Columbus, Ohio.

**OKLAHOMA**—Nurseries are inspected annually. The owners of nursery stock who desire to ship into the State of Oklahoma are required to make application for a permit. This permit is issued by the Board of Agriculture upon the filing of a duplicate certificate of inspection or report of inspection from the State Inspector who examined the stock. The application must be accompanied by a remittance of \$5. All shipments into the State must be accompanied by a tag on which is printed copy of this permit. All agents canvassing for nurseries located outside of the State are required to carry a duplicate of the permit of their principal, which duplicate is issued upon payment of \$1. Price of tags given on application. State Board of Agriculture, Guthrie, Oklahoma.

**OREGON**—The State Board of Horticulture has charge of the inspection within the State. All nursery stock brought into the State must be inspected before delivery to consignee. If found infected or infested nursery stock must be disinfected, returned to consignor or destroyed. Peach trees or other trees on peach roots grown in or coming from districts where peach yellows or little peach exist, are prohibited entry. All nursery stock offered for sale within the State must be disinfected or treated before shipment by the use of hydrocyanic acid or by dipping in the standard lime-sulphur solution of winter strength for spraying. Mr. H. M. Williamson, Secretary,

State Board of Horticulture, Portland, Oregon.

**PENNSYLVANIA**—Shipments of nursery stock into the State must be plainly labeled on the outside with the name of the consignor and consignee and a certificate showing that the contents have been inspected. Certificates of affidavits of fumigation are required to accompany shipments from other States and the word "fumigated" printed or stenciled on the certificate of inspection will not be accepted unless it is apparent that such word is a part of the certificate granted by a State Inspection officer. Dealers in nursery stock are furnished certificates under certain restrictions. Transportation companies are required to reject all stock entering the State unless a certificate of inspection and fumigation are attached. Prof H. A. Surface, Economic Entomologist; Mr. Enos B. Engle, Inspector, Harrisburg, Pa.

**RHODE ISLAND**—The State Board of Agriculture appoints a State Nursery Inspector, whose duties shall be to inspect nurseries and grant an annual certificate. Owners of nurseries who shall fumigate all stock sold by them may make affidavit to the fact and attach a copy to each package shipped in lieu of a certificate of inspection. All nursery stock shipped into the State shall bear on each package a certificate that the contents have been inspected by an authorized inspecting officer. In case nursery stock is brought within the State without such a certificate the consignee shall return it to the consignor, provided, however, that any package or box bearing a certificate of fumigation, which meets the requirements, may be accepted as though bearing a certificate of inspection. (Chap. 1159, Laws of 1904.) Mr. A. E. Stene, State Nursery Inspector, Kingston, R. I.

**SOUTH CAROLINA**—Nurseries must be inspected annually and it is unlawful to sell or ship without a certificate. All persons outside the State must register a copy of their certificate of inspection, furnished by the authorized official of the state in which he resides, with the Chairman of the Board of Entomology, which copy shall state that in addition to inspection the nursery stock has been fumigated under the direction of the official issuing the certificate. Upon the filing of the proper

certificate as prescribed any person outside the State dealing in nursery stock will receive official tags, one of which must be placed, together with a copy of his certificate of inspection, on each consignment of stock, entering the State. (Circular 1, August, 1903.) Mr. W. A. Thomas, State Entomologist, Clemson College, S. C.

**SOUTH DAKOTA**—Nurserymen intending to do business in this State should file in the office of the State Entomologist, duplicate copy of their certificate of inspection. Any person desiring to sell nudsery stock to be used in the State is required to certify where the stock is grown and shall attach a copy of certificate to each shipment. Mr. Robert Matheson, State Entomologist, Brookings, S. D.

**TENNESSEE**—Nurseries inspected annually. Certificates are issued not later than November 1 and become void after August 1 of the following year. Parties shipping nursery stock into Tennessee must file duplicate certificate of inspection, signed in person by proper official, with the Secretary of the State Board of Entomology, Knoxville, Tenn. A certificate of inspection must be attached to each package of nursery stock shipped into the State. All nursery stock shipped or delivered within the State must be fumigated before delivery. Mr. G. M. Bently, State Entomologist, Knoxville, Tenn.

**TEXAS**—Nurseries are inspected annually. All shipments of nursery stock must be accompanied by a copy of a certificate attached to each car, box or package. No nursery stock shall be shipped into the State without first filing with the Commissioner of Agriculture a certified copy of a certificate of inspection. A fee of \$5 shall be required for filing, upon receipt of which the Commissioner of Agriculture may issue a certificate permitting the applicant to ship into the State and each box or package shall bear a copy and also a copy of the certificate of the State in which the shipment originates.

Shipments into the State not bearing the certificates required will not be delivered until the transportation company notifies the Commissioner of Agriculture. Agents or dealers for nurserymen outside of the State should procure agents' credentials. Hon Ed. R. Kone, Commissioner of Agriculture, Autsin, Texas.

**UTAH**—Nurserymen doing business in this State are required to file a bond with the State Horticultural Commission in the sum of \$500 and pay an annual license fee of \$2.50. All nursery stock will be inspected on arrival and any infested stock, disinfected or destroyed at cost of shipper. Trees showing evidence of crown gall or hairy root disease must be destroyed by burning. J. Edward Taylor, State Inspector, Salt Lake City, Utah.

**VERMONT**—Nurseries are inspected annually. Nursery stock shipped into the State shall be accompanied by a certificate of inspection and the name and post office address of the consignor and consignee. (Laws 1908.) Wm. Stuart, State Nursery Inspector, Burlington, Vt.

**VIRGINIA** — Before selling nursery stock, it is necessary to procure from the Auditor of Public Accounts, Richmond, Virginia, a certificate of registration for which the fee is \$20 for principals, with duplicates for agent's fee. Send certified check or draft for \$20 drawn or endorsed payable to the treasurer of Virginia. (Personal checks will not be accepted.) Duplicate of certificate of nursery inspection must be filed with the State Entomologist, who will furnish tags at cost, and one tag must be attached to each package of stock to be sold in the State. (Laws of 1903.) Dr. J. L. Phillips, State Entomologist, Blacksburg, Va.

**WASHINGTON**—No person, firm or corporation shall engage or continue in the business of selling as agent, solicitor, or otherwise, within the State, or importing nursery stock without first having obtained a license. Application therefor must be made to the Commissioner of Horticulture, accompanied by a satisfactory bond of \$1,000; each bond must be renewed every year. Such bond shall be conditioned that the principal or his agents will obey the provisions of the law, and that said principal will pay the cost of disinfection or destruction of all infested nursery stock and fruit sent into the State by said principal or his agents. The license fee for nurserymen and tree dealers shall be \$5 and for other agents or salesmen \$1. All licenses expire one year from date of issue unless renewed upon the same terms originally provided for. Every person licensed to do business in the State must notify the

Commissioner of Horticulture of his intention of shipping nursery stock, giving the names and addresses of the persons, firms, or corporations to whom they are sold. Such notice shall contain the name and address of both consignor and consignee, an invoice of the goods to be shipped and point from which they are to be delivered. A copy of such notice shall also be sent to the horticultural inspector of the district in which the point of destination is located. For full information address Hon. F. A. Huntley, Commissioner of Horticulture, Kenwick, Wash.

**WEST VIRGINIA**—Nurseries are inspected annually. Certificates shall be void after September 15th of year following the date. No person shall deliver to purchasers any nursery stock consigned into this State from points without unless they have at least ten days before the time of delivery given notice in writing to the director of the experiment station of the number of trees in such consignment, the place from whence said stock was shipped and the destination of the same. No person growing or having in his possession with intent to sell nursery stock shall deliver the same before fumigating it. Every package of nursery stock shipped into the State shall be plainly labeled with the names of the consignor and consignee and a certificate of inspection, showing that the contents have been properly fumigated. (Laws of 1907.) Nurserymen who desire to employ traveling salesmen in the State should secure from the Secretary of State, Charleston, W. Va., information relative to license fees. Prof. J. H. Stewart, Director Agricultural Experiment Station, Morgantown, W. Va.

**WISCONSIN**—If the inspector finds nursery stock infested with injurious insects or fungus disease, he shall notify the owner and the stock shall not be sold or delivered. Transportation companies are forbidden to deliver nursery stock unless accompanied by proper certificates. Any person or corporation outside of the State may obtain a license to sell nursery stock in the State upon the payment of \$10 and filing a copy of official certificate of inspection, showing that such stock has been duly inspected by an authorized inspector. Agents or other persons selling nursery stock in the State for and nurseries outside of the State shall

be required to carry a duplicate copy of a license held by his principal the cost of which is \$1 for each duplicate. Persons doing mail order business in the State are required to take out a similar license. Any person importing plants from foreign countries shall notify the inspector of such shipments. All persons engaged in selling and shipping fruit trees into the State are required to obtain tags, upon which a certified copy of a license shall be printed and each package, box or carload shall be provided with such tags. A. J. Roberts, Jr., Orchard and Nursery Inspector, Madison, Wis.

---

**WYOMING**—Any person or firm wishing to do business in this State must first obtain a license. Licenses are issued on application for a period terminating on July 1 of the next succeeding inspection year (approximately two years). All applications must be accompanied by the license fee (\$25.00), a bond in the sum of five hundred dollars (\$500) conditioned that the principal will faithfully obey the law of the State, and by a certified certificate of inspection from an authorized inspector in the State from which shipments are to be made. On receipt of these, the Secretary of the State Board issues authorized shipping tags (at cost). Nursery stock may not enter the State and transportation companies may not deliver unless such tag be attached to each and every box, bundle or bale. Notice before shipment should be made to, and a circular of information obtained from, Prof. Aven Nelson, Secretary State Board of Horticulture, Laramie, Wyo.

**CANADA**—Within the Province of Ontario all nursery stock, except greenhouse plants, herbaceous perennials, herbaceous plants, conifers, bulbs and tubers, must be fumigated before delivery.

Shipments into Canada must be addressed so as to enter Canada at one of the named ports of entry, where the stock will be unpacked and fumigated by the authorities.

The fumigation seasons for the various stations are as follows: Vancouver, B. C., October 1st to May 1st; Winnipeg, Man., March 15th to May 15th, and October 7th to December 7th; Windsor, Ont., March 15th to May 15th, and September 26th to December 7th; Niagara Falls, Ont., March 15th to May 15th, and September 26th to December 7th; St. Johns, Que., March 15th to May 15th, and September 26th to December 7th; St. John, N. B., March 15th to May 15th, and October 7th to December 7th. Dr. C. Gordon Hewitt, Dominion Entomologist, Central Experimental Farm, Ottawa, Canada.
